Missouri Republicans will hole two State conventions this year The first will meet May 27 at St Joseph to elect delegates-at-large to the National convention. The convention to nominate candidates for State offices will meet at Springfield July 22. The basis of representation to each convention is one delegate for every 300 votes or fractions over 150 cast for Robinson, the Republican candidate for Supreme Judge in 1894, making 763 delegates in each convention. All southwest Missouri is rejoicing over Springfield's great victory. The July convention will be one of the grandest and most enthusiastic ever held in this State, and it will name winners from top to bottom. Taney county offers congratulations to the Queen City.

MOMINLEY AND THE CURRENCY. The New York Republican papers are making bitter war on McKinley because he is supposed to be rather friendly to silver. They are supporting Governor Morton most heartily in the belief that he is as unalterably opposed to the free coinage of silver now as in the days when he filled the office of Vice Presdent. McKinley is very strong in western New York, and Jerome Babfrom the First Chautauqua district, and the Republican leader of the free silver forces in that section of the State, recently explained the situa-York Morning Advertiser, as follows:

"If you were to ask why McKinley has proved himself to be so atrong in our section," said Mr. Babcock, "I should say that it is because the people there believe McKinley is and that if a free coinage bill should come to him as President he would not exercise a vicious veto power. The platform adopted by the Ohio Republicans at the convention at which McKinley was formally placed in the field for the Presidency, while not all that the advocates of free silver would wish, leads us to believe that should the Ohio candidate be d and elected, he would use his influence to have a law enacted recognizing silver as on a parity with gold as a purchasing medium, and perhaps authorizing the free coinage of silver in limited quantities. I tell on the news of such an eventful year you, the friends of silver are multi- as 1896 promises to be, a person plying from one end of the country to the other, and McKinley is shrewd wide-awake metropolitan paper enoughto see it.

"While I have the highest regard for Governor Morton personally and the Presidential campaign, the great speeches, the November election and the outcome of all the wars and port him as the candidate of the Bapublican party, for I am a Republican ugh and through, many people that he is too much identified with the gold men who control Wall street, and would refuse to give silver any chance. In Chantauqua, as well as Erie county, thousands of men and women are employed in factories, and newhars thereands never the same time keep to the politics. They will receive in return twice every week for a year a copy of the spiciest, newsiest and most entertaining newspaper in the country. The Twice-a-Week Republic will make a specialty of giving all the politica news and speeches on both sides, and at the same time keep up the very entertaining departments. th will make a big mistake if br allows the Republican State conven-tion to declare for a single gold stand-ard, find paintings 2 untillitie before the St. Louis, convention, on that

Unless the Repu licans take a decided stand for silver or bimetallism, the Democrate certainly will. I anticipate they will anyway, and I fear the Republicans will not be able to elect their candi date in a walk if the Democrats carry out the plans said to be on foot."

Of course, the Advertiser is for Morton, and reports Mr. Babcock's spinions for the purpose of injuring McKinley in the East. It is possible, however, that in the nation a large, Mr. McKinley will gain friends by being presented to the country as bimetallist willing to stand on conservative platform. The Repub licans of Missouri have great faith in the sound judgment of their party, and firmly believe that the St. Louis convention will make a platform that will do justice to North and South, East and West.

He thinks the Republican party will be more likely to favor silver than its adversary. Mr. Burton is an able and experienced politician, and no one can doubt that he feels entire confidence in the wisdom of the St. Louis convention. The Republican party is preparing to deal with the silver question in a manner that will satisfy the masses and leave them free to crush out the free trade theories of the Democracy, and restore the country to its normal condition of prosperity based upon pro-

DELEGATES TO POPLAR BLUFF

Taney Sends Six Men Instructed to Work for Hckinley.

A mass convention of the Republican voters of Taney county was held in the court house here last Saturday afternoon for the purpose of select ing six delegates to attend the con gressional convention at Poplar Bluff on the 6th of May. Considering that this is the farmers' busy season, the convention was very well attended. which shows that the Republicans of this county are already deeply interested in the coming campaign.

The convention was called to order by B. B. Price, chairman of the county committee. He then invited Col. A. S. Prather to act as temporary chairman, and the Colonel took charge of the meeting. George L Taylor was elected temporary secretary. The temporary organization was made permanent, and the chairman appointed J. L. Davis, D. F. Mo Conkey and W. C. Scott as a committee on order of business, the convention having voted in favor of the

appointment of such a committee. The committee on order of business reported in favor of the appointment of a committee of three on resolutions, to whom all resolutions should be referred without debate, with power to make recommendations for the best interests of the party.

The committee on order of business also reported in favor of the appointment of a committee of three to select six delegates and six alternates to represent Taney county at the Poplar Bluff convention.

The report of the committee on order of business was adopted. The chairman appointed S. Linzy, J. K. McHaffie and Robert A. America at the ratio of 16 to 1, and Baker as a committee on resolutions. The chairman then appointed J. C.

Johnson, J. A. Tolerton and U. G. Johnson as a committee to select delegates and alternates. While these two committees were out, the convention was addressed by Messrs, B. B. Price and J. L. Davis,
